Deep Truth: Igniting the Memory of Our Origin, History, Destiny, and Fate Gregg Braden

Best-selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families, cultures, and nations—seemingly disparate issues such as war, terrorism, abortion, genocide, poverty, economic collapse, climate change, and nuclear threats—are actually related. They all stem from a worldview based upon the false assumptions of an incomplete science. Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself. When the facts become clear, our choices become obvious.
