Access Pricing: Theory and Practice

Ralf Dewenter, Justus Haucap

Access Pricing: Theory and Practice Ralf Dewenter, Justus Haucap

This book is dedicated to the analysis of access pricing in theory and practice. The structure of this book which is organized in five parts is as follows: The extended introduction will introduce the key concepts and issues including a brief explanation of the essential facility concept as well as the distinction between one-way and two-way access and will briefly survey the main contributions within the literature on access pricing theory and practice. While parts I and II deal with the theory of one-way and two-way access pricing, respectively, part III focuses on the newly emerging theory of access pricing with multihoming. Parts IV and V address the practice side and focus on industry-specific applications and special problems (Part IV) as well as public policy issues (Part V).
