Behind 3G lives a serial killer. She had some notoriety among child-abuse medical professionals, since she was the featured perpetrator in the original medical journal article that named shaken baby syndrome as an entity in 1972. The woman behind this apartment door had shaken, twisted, squeezed, and slapped babies in the 1940s and '50s--killing three and injuring twelve others. Did she even remember her victims' names? She had known, and later admitted, that what she did was wrong, but after her first murder, because of her volatility, this knowledge hadn't stopped her from striking out. This was the true nature of a serial killer, having no remorse and no ownership for her nefarious deeds. This was a national story that quickly got swept away. *Lilacs in the Rain* was written to bring it all back and educate the public. This book is at once the history and the beginning of what we now know as shaken baby syndrome.
