Sam is a Bokononist researching a book on the end of the world.

The problem is that it is an end that only four people remember, an end that occurred in 1961 and brought about by *Ice-nine*, a supposedly *fictional* substance. Hot on the trail of the truth, Sam finds himself on a journey no one would ever believe. He'll fight a giant, marry a woman who has been dead for years, and set out on an adventure with a crazy time-traveling elevator operator named Rayford, who zips him through time and space as they seek to solve the mystery of the apocalypse that once—and never—was.

*Osage Two Diamonds* is a humorous and satirical parable set in the world of Kurt Vonnegut's *Cat's Cradle* that asks, *What if it were all true?* What if Vonnegut wrote a fictionalized account of real events and the world really did end in 1961, but someone subsequently un-ended it?

*This book was initially released in episodes as a Kindle Serial. All episodes are now available for immediate download as a complete book.*
