Emanuel Swedenborg: Scientist and Mystic *SIGNE TOKSVIG*

This classic biography of Emanuel Swedenborg (1688–1772), first published in 1948, gives us a sharp, witty, personal insight into the life of the Swedish scientist and theologian.

Though not a Swedenborgian herself, and somewhat skeptical of Swedenborg's claims to divine revelation, Toksvig praises Swedenborg's genius as both a thinker and a man of faith: "Swedenborg in his later phase has as great treasure to bestow as many of those millionaires of the spirit we call mystics, even if one reads him strictly from an ethical point of view. And, apart from an interest in distinctions between good and evil—not an unnecessary interest at the present time, one would think—Swedenborg in his life and works can, if one takes a little trouble to understand him, open travel horizons for us far exceeding all others for beauty and strangeness."

An introduction by the Reverend Brian Kingslake, added to a 1983 edition, provides a Swedenborgian perspective and retrospective on a work that remains a fascinating, informative look at Swedenborg's world.
