The Story of Napoleon Harold Wheeler

There is no more marvellous story in human history than that of Napoleon I., Emperor of the French. His career is one long demonstration of the reality of the proverb, "Truth is stranger than fiction." So fascinating are the details of a life in which so much was attempted and accomplished that many thousands of volumes have been published dealing with its various phases. The demand is by no means exhausted, the supply continuous, as witness the present work. Busy pens are still employed in reviewing the almost superhuman activities of the once obscure Corsican, whose genius for war and conquest upset many a throne, secured for him the Overlordship of Europe, and eventually consigned him to an island prison. Indeed, there seems little likelihood of a lull in interest while the chief source of instruction and amusement of human nature is humanity—in other words itself. Most of us are content to be pupils in the school of experience, willing to sit at the feet of such a master as Napoleon, and learn the lessons he has to teach. The result cannot be other than profitable.
