Chavez's Children: Ideology, Education, and Society in Latin America

Manuel Anselmi

Chavez's Children: Ideology, Education, and Society in Latin America Manuel Anselmi

Most publications on the political situation in Venezuela are journalistic and lack a scientific, and particularly sociological, approach. *Chavez's Children: Ideology, Education, and Society in Latin America* is the first sociological work on the ideological system in Venezuela. This book deals with the deep social structures of Chávez's power, its origins, its evolution in history, its dynamics, its institutionalizations, and its relationships with the educational system. By using an empirical analysis of Bolivarian schools and fieldwork on over 300 students, *Chavez's Children* reconstructs the history of revolutionary movements in Venezuela and advocates a model of analysis on Latin American socio-revolutionary phenomena. This English language edition will be a great opportunity for Latin American experts as well as interested readers to uncover the system behind Chávez's power.
