## **Government in the Federal Republic of Germany: The Executive at Work** Nevil Johnson

Government in the Federal Republic of Germany: The Executive at Work focuses on the government in the Federal Republic of Germany as an executive activity, as well as the institutional framework for the overall control and direction of public action. The effects of the decentralized structure of government on the behavior and relationships of political parties are also explored.

This book is comprised of eight chapters and begins with a discussion on past institutional structures and procedures that have shaped particular ideas about law, politics, and government in West Germany, including the retention of a federal structure of government, constitutionalism, and the Rechtsstaat. The following chapters deal with the political framework of the Federal Republic of Germany; federal executive leadership; the federal administrative system; and federalism and decentralization in West German government. The bureaucracy, the problem of how to control the exercise of governmental powers, and the challenge of expanding government in West Germany are also considered.

This monograph will be of interest to political scientists, politicians, government officials, and students of government and politics.
