Road and rail networks are easy to see on a clear base which presents topography by altitude colouring with contours, spot heights, and names of mountain ranges, selected peaks and other geographical features. National parks are highlighted.

Road network includes local roads and selected tracks and gives driving distances on main and secondary roads. Symbols highlight various places of interest, including campsites, UNESCO world heritage sites, etc. The map has a grid with latitude and longitude at intervals of 1° and is indexed. Multilingual legend includes English, high quality German cartography.
