Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments

Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments

Founded in 1966, the internationally recognized and acclaimed Series 'Palaeoecology of Africa' publishes interdisciplinary scientific papers on landscape evolution and on former environments of the African continent. Beginning with topics such as changes in climate and vegetation cover, the papers expand horizons and interconnections to various types of environmental dynamics from the Cainozoic up to the present; moreover, the aspect of human influence since the Late Quaternary is related to many of the areas studied.

Volume 31 presents four comprehensive papers on long- and short-term processes of landscape evolution (geological history, neotectonics and proxy Quaternary alluvia), as well as a recent regional perspective on environmental problems in Southern Cameroon. The book acts as a showcase for successful North-South cooperation and capacity building for empowering African Universities. It is problem oriented and applied, and illustrates how scientific and interdisciplinary cooperation can work. In the framework of the German Research Foundation's (DFG, Deutsche Forschungsgemeinschaft) funded "Rain Forest Savanna Contact" project (2003-2009) two abbreviated English versions of PhD theses are here published, one by J. Eisenberg on neotectonics and the other by M. Sangen on river sediments in rain forest-savanna transitional zones. Complementary articles are an introduction on geological history, by B. Kankeu et al. and a paper on environmental risks by M. Tchindjang et al., together these complete the results of this joint German-Cameroonian research project.

This book will be of interest to all concerned with ecosystems dynamics, tropical forests, savannas and related development problems of Third World countries, especially regional planners, ecologists, botanists, earth scientists and students of the Quaternary (e.g. LGM and Holocene ecosystem dynamics, Global Change). It will be valuable for advanced undergraduates and postgraduates as a reference for new research articles on the topic of long-term geologic-tectonic and Quaternary landscape evolution in an up-to-now not well explored marginal area of the Western Congo basin.

From reader reviews:

Christopher Barnes:

Information is provisions for individuals to get better life, information these days can get by anyone in everywhere. The information can be a expertise or any news even restricted. What people must be consider any time those information which is in the former life are challenging be find than now could be taking seriously which one works to believe or which one typically the resource are convinced. If you obtain the unstable resource then you buy it as your main information there will be huge disadvantage for you. All those possibilities will not happen inside you if you take Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments as the daily resource information.

Jerald Elliott:

Why? Because this Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments is an unordinary book that the inside of the reserve waiting for you to snap this but latter it will zap you with the secret the item inside. Reading this book alongside it was fantastic author who write the book in such wonderful way makes the content within easier to understand, entertaining method but still convey the meaning fully. So , it is good for you because of not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of rewards than the other book get such as help improving your proficiency and your critical thinking means. So , still want to postpone having that book? If I have been you I will go to the e-book store hurriedly.

Lois Araiza:

Your reading sixth sense will not betray an individual, why because this Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments e-book written by well-known writer whose to say well how to make book that may be understand by anyone who all read the book. Written within good manner for you, leaking every ideas and publishing skill only for eliminate your current hunger then you still uncertainty Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments as good book not simply by the cover but also by the content. This is one guide that can break don't judge book by its protect, so do you still needing another sixth sense to pick this kind of!? Oh come on your looking at sixth sense already alerted you so why you have to listening to yet another sixth sense.

Alex Estepp:

Don't be worry in case you are afraid that this book will probably filled the space in your house, you can have it in e-book technique, more simple and reachable. This kind of Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments can give you a lot of good friends because by you investigating this one book you have thing that they don't and make you actually more like an interesting person. This particular book can be one of a step for you to get success. This reserve offer you information that possibly your friend doesn't realize, by knowing more than various other make you to be great folks. So , why hesitate? Let me have Landscape Evolution, Neotectonics and Quaternary Environmental Change in Southern Cameroon: Palaeoecology of Africa Vol. 31, An International Yearbook of Landscape Evolution and Palaeoenvironments.
