## Adaptive Diversification (MPB-48) (Monographs in Population Biology) Michael Doebeli

Understanding the mechanisms driving biological diversity remains a central problem in ecology and evolutionary biology. Traditional explanations assume that differences in selection pressures lead to different adaptations in geographically separated locations. This book takes a different approach and explores adaptive diversification--diversification rooted in ecological interactions and frequency-dependent selection. In any ecosystem, birth and death rates of individuals are affected by interactions with other individuals. What is an advantageous phenotype therefore depends on the phenotype of other individuals, and it may often be best to be ecologically different from the majority phenotype. Such rare-type advantage is a hallmark of frequency-dependent selection and opens the scope for processes of diversification that require ecological contact rather than geographical isolation.

Michael Doebeli investigates adaptive diversification using the mathematical framework of adaptive dynamics. Evolutionary branching is a paradigmatic feature of adaptive dynamics that serves as a basic metaphor for adaptive diversification, and Doebeli explores the scope of evolutionary branching in many different ecological scenarios, including models of coevolution, cooperation, and cultural evolution. He also uses alternative modeling approaches. Stochastic, individual-based models are particularly useful for studying adaptive speciation in sexual populations, and partial differential equation models confirm the pervasiveness of adaptive diversification.

Showing that frequency-dependent interactions are an important driver of biological diversity, *Adaptive Diversification* provides a comprehensive theoretical treatment of adaptive diversification.

### **From reader reviews:**

#### **Diego Mears:**

The publication untitled Adaptive Diversification (MPB-48) (Monographs in Population Biology) is the e-book that recommended to you you just read. You can see the quality of the publication content that will be shown to an individual. The language that creator use to explained their ideas are easily to understand. The article author was did a lot of analysis when write the book, therefore the information that they share to your account is absolutely accurate. You also might get the e-book of Adaptive Diversification (MPB-48) (Monographs in Population Biology) from the publisher to make you considerably more enjoy free time.

#### **Rose Bennett:**

Do you have something that you enjoy such as book? The e-book lovers usually prefer to opt for book like comic, brief story and the biggest you are novel. Now, why not striving Adaptive Diversification (MPB-48) (Monographs in Population Biology) that give your pleasure preference will be satisfied through reading this book. Reading habit all over the world can be said as the method for people to know world far better then how they react when it comes to the world. It can't be mentioned constantly that reading behavior only for the geeky particular person but for all of you who wants to be success person. So , for all of you who want to start reading as your good habit, you are able to pick Adaptive Diversification (MPB-48) (Monographs in Population Biology) become your personal starter.

#### **Louise Suttle:**

This Adaptive Diversification (MPB-48) (Monographs in Population Biology) is brand-new way for you who has fascination to look for some information as it relief your hunger associated with. Getting deeper you into it getting knowledge more you know or else you who still having bit of digest in reading this Adaptive Diversification (MPB-48) (Monographs in Population Biology) can be the light food in your case because the information inside this kind of book is easy to get by anyone. These books develop itself in the form that is reachable by anyone, yes I mean in the e-book type. People who think that in book form make them feel tired even dizzy this e-book is the answer. So there is no in reading a publication especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss this! Just read this e-book sort for your better life and knowledge.

#### **Ann McLemore:**

A lot of people said that they feel fed up when they reading a guide. They are directly felt it when they get a half regions of the book. You can choose the book Adaptive Diversification (MPB-48) (Monographs in Population Biology) to make your own personal reading is interesting. Your own skill of reading talent is developing when you such as reading. Try to choose easy book to make you enjoy to study it and mingle the sensation about book and studying especially. It is to be initially opinion for you to like to open up a book and learn it. Beside that the e-book Adaptive Diversification (MPB-48) (Monographs in Population Biology)

can to be your brand-new friend when you're sense alone and confuse with the information must you're doing of their time.
