Justice and Responsibility-Sensitive Egalitarianism (Palgrave Pivot) Robert C. Robinson

A common question asked among egalitarians involves the extent to which responsibility should play a deciding factor in assessing the acceptability of inequalities. So-called luck egalitarians agree that instances of genuine choice are decisive in attributing responsibility for disadvantage, and in justifying unequal distributions of social goods. In this exciting new contribution to this literature, the author explores the correct place to locate the cut between choice and chance. In doing so, he lays out a novel approach for identifying inequalities for which it is fair to hold one responsible, and those for which it is not. The argument--which builds on a thread of intellectual history that runs through Marx and Mill into more contemporary thinkers like Cohen and Rawls--provides a compelling case for rejecting a highly influential theory of strong property rights that has been inherited from Locke, and which we find in contemporary defenses of strong entitlements such as Robert Nozick's. The result is an egalitarian position which treats responsibility seriously, while maintaining our liberal commitments to impartiality and non-arbitrariness in the distribution of rights and responsibilities in contemporary society.
