## Jet Fuel Toxicology

Currently serving as a resource for the *National Center for Toxicological Research* in their work with the Gulf Coast oil spill, this book presents current research conducted primarily by the airforce on the toxic effects of JP-8 jet fuel on the pulmonary, immune, dermal, and nervous systems. In all, the book considers 13 toxicology studies of significance, the results of which are currently shaping US armed services policy. It will enable all of the hydrocarbon industry to make better choices regarding fuel handling.

Due to its widespread use, jet fuel is thought to be the largest toxicant exposure risk for U.S. Armed Services personnel. Taking a proactive approach to the potential dangers of repeated human exposure to hydrocarbon fuels, the Air Force Office of Scientific Research (AFOSR) sponsored a number of research projects during the last 20 years investigating health effects resulting from specific exposure to JP-8 (Jet Propellant-8).

***Jet Fuel Toxicology*** summarizes the newest and most important results of these extensive research programs carried out by hydrocarbon fuel research groups throughout the U.S. Each book chapter highlights one specific research area from the many topical areas comprising jet fuel toxicology. After examining the contents and general action of JP-8, the book looks at how the fuel affects various body functions highlighted by:

- Effects on daily inhalation on the respiratory system
- Acute and long-term neurotoxicological and neurobehavioral effects
- Both local and systemic toxicity following exposure through the skin
- Immunotoxicity from pulmonary and dermal exposures
- Genetic damage, as evidenced in studies of the blood and bone marrow of mice

In all, the book considers 13 major toxicology areas of study, the results of which will enable all of the hydrocarbon industry to make fuel choices that more carefully consider possible human health risks.

Perhaps even more importantly, the book profoundly demonstrates how unfortunate lessons from the

following major chemical exposure scenarios of the past must not be lost in the ongoing protection of both military personnel and civilians:

- Agent Orange exposures during the **Vietnam War**
- Multiple chemical/stressor exposures, including multiple fuels and solvents, during the **Persian Gulf Wars**
- Chemical exposures, including Jet-A fuel, during the **9/11 World Trade Center Disaster**
- Hydrocarbon/oil dispersing compound exposures during the **Gulf of Mexico Oil Spill Crisis of 2010**

For example, based on data contained in this book, the Air Force now removes female personnel from any exposure to jet fuel during their pregnancies and has reduced permissible exposure levels to jet fuel for all military and associated civilian staff. Ultimately, this book can serve as a template for managing future toxicological issues for both international armed forces and those corporations willing to learn from these important lessons.

### **From reader reviews:**

#### **Carol Berry:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important work, like looking for your favorite publication and reading a book. Beside you can solve your short lived problem; you can add your knowledge by the book entitled Jet Fuel Toxicology. Try to face the book Jet Fuel Toxicology as your buddy. It means that it can to be your friend when you experience alone and beside that course make you smarter than before. Yeah, it is very fortuned for yourself. The book makes you more confidence because you can know everything by the book. So , let's make new experience and knowledge with this book.

#### **Ryan Connors:**

Information is provisions for individuals to get better life, information currently can get by anyone at everywhere. The information can be a know-how or any news even a huge concern. What people must be consider whenever those information which is in the former life are difficult to be find than now could be taking seriously which one would work to believe or which one typically the resource are convinced. If you find the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen inside you if you take Jet Fuel Toxicology as your daily resource information.

#### **David Packard:**

Hey guys, do you wishes to finds a new book to learn? May be the book with the headline Jet Fuel Toxicology suitable to you? The particular book was written by popular writer in this era. The actual book untitled Jet Fuel Toxicologyis the main one of several books that everyone read now. This specific book was inspired many men and women in the world. When you read this reserve you will enter the new way of measuring that you ever know ahead of. The author explained their thought in the simple way, consequently all of people can easily to comprehend the core of this reserve. This book will give you a great deal of information about this world now. To help you to see the represented of the world in this book.

#### **Cheryl Crockett:**

The e-book with title Jet Fuel Toxicology posesses a lot of information that you can study it. You can get a lot of benefit after read this book. This specific book exist new expertise the information that exist in this e-book represented the condition of the world right now. That is important to yo7u to learn how the improvement of the world. This kind of book will bring you throughout new era of the syndication. You can read the e-book on your own smart phone, so you can read it anywhere you want.
