Killing Billionaires is a surreal alternative history novel in the XXX pulp fiction genre. It re-imagines the OWS protest as the final showdown of a corrupt civilization at the breaking point: the Billionaires have broke the country by commandeering the economy and "cutting Americans out." Income inequality is at historic highs. The story drags the reader through the bowels of humanity until unflinching XXX visions reveal cosmological forces behind the scenes with an agenda all their own. Dade Pitrис is a paranoid schizophrenic who spends his days reciting philosophy and writing graphic sex stories for his anonymous patron, a Billionaire, called the Secret Client. He complies with the Secret Client's increasingly perverse demands until the horrific visions from his pornography begin to shape his reality. Dade escapes to the Occupy Wall Street encampment where he meets Christian McComber, the erratic young leader of the protest, who has a plan to crash the financial markets with an uprising of the Millennials. When lower Manhattan is invaded by millions of angry kids dead-set on a massacre of the Billionaires, Dade is swept up in the movement by unseen forces grooming him for a transfiguration that is both astonishing and profound.
