Handbook of Behavior Therapy with Sexual Problems, Volume II: Approaches to Specific Problems compiles case studies illustrating the use of techniques as they are applied to specific sexual problems. This publication is divided into two parts. Part I discusses approaches to the problems often encountered by men and women in heterosexual intercourse. For men, the two major areas included are problems with achieving or maintaining erections during sexual activities and problems associated with ejaculation. The problem areas covered for women are problems in orgasmic functioning and problems of painful or difficult intercourse. Part 2 elaborates sexual problems associated with undesired sexual object choices. The homosexual, fetishistic, cross-dressing, exhibitionistic, pedophilic, sadomasochistic, voyeuristic and miscellaneous behaviors are also covered. This publication is a good reference for behaviorally-oriented clinicians and practitioners who are attempting to alleviate the suffering associated with their clients' sexual problems.
