The Fastest Way To Improve Memory, Master Speed Reading, and Rapidly Increase Your Brain Power Barrett Niehus

Discover the secret of immediately memorizing everything you see, hear or read, and being able to quickly power through thousands of pages of text while understanding and retaining every word. It may sound like science fiction, but there are simple techniques that anybody can employ to immediately boost their memory, improve brain power and increase reading speed. These techniques are simple, take very little time to learn, and once you have mastered them, they become second nature. Start employing these techniques today and as they become second nature, you will find that your retention, reading speed will improve exponentially; essentially improving your overall brain power. Imagine being able to remember everything you see and hear. Enjoy perfect recall when meeting new people and to remember all of the pertinent details of your life. Use these skills to remember phone numbers, faces, people, events, and everything else that effects your life. In addition to improved memory, this book teaches you simple techniques that can increase your reading speed and retention by as much as 80%; allowing you to quickly scan through books, papers, and entire courses with fantastic speed and retention. Use these techniques to become a speed reader virtually overnight and save countless hours that would otherwise be spent slowly plodding through hard-to-understand text. Tens of thousands of individuals have employed the techniques taught in this book to make dramatic improvements in every facet of their lives. Students have used these approaches to memory and learning to improve grades in every subject, and to rocket to the head of the class. Business professionals use the memory techniques taught in this book to maintain a professional edge above their co-workers for rapid career advancement. Being able to remember facts, statistics, and present this data on demand, especially during critical meetings, truly sets them apart from their colleagues. Most careers require the ability to sift through hundreds of pages of text each and every day. From emails to full reports, the ability to read and retain information as quickly as possible. Truly, the faster and better you read, the more efficient you can be at your job, and the better positioned you will be to move up the corporate ladder. Use the reading and memory techniques taught in this book to differentiate yourself from your co-workers and jump-start your career. This book addresses three critical sections associated with learning and cognition, memory and mnemonics, and speed reading. All are designed with simple, easy-to-use techniques that have been proven to improve critical areas of learning, comprehension and memory. The techniques are simple to start, and as you use them throughout the day, they will become second-nature; effectively optimizing the way that you process and retain information.
